Jasper, AL 35501  
205-458-3378**

**Walk-in & telehealth  
services available**

Navigating our community's substance use treatment system can be confusing and overwhelming. The Recovery Resource Center is a collaborative initiative dedicated to simplifying that process by providing a central point of information. The center's staff and volunteers have the expertise to answer questions, initiate the treatment process, and make referrals as needed.

## **OUR SERVICES INCLUDE:**

**Assessment:** The Alabama Dept. of Mental Health placement assessment based on the American Society of Addiction Medicine (ASAM) Criteria can be conducted to identify the appropriate level of care.

**Information:** Through an in-house consultation, we provide general information about addiction and recovery, as well as information specific to each treatment provider and/or type of treatment.

**Referral:** Based on results from the assessment, treatment options and community resources will be discussed to meet individual needs. This discussion takes into consideration various factors, such as insurance, or lack of, as well as specific characteristics such as gender, veteran status, place of residence, and drug of choice.

## **HOW IT WORKS:**

- **Peers listen to clients and share personal recovery when appropriate during intake.**
- **Assessment determines appropriate level of treatment needed.**
- **Staff relays assessment data to desired treatment programs and provides referral information to client.**
- **Peers maintain regular contact with clients until they are in treatment and offer follow-up services.**

\* We accept walk-ins, but calling ahead or making an appointment is encouraged.  
Because assessments may take up to two hours to complete, we suggest arriving before 2:30 PM.
